

# FOR SALE

## Peterborough Pond Canoe

Size 14 x 34 x 13

Built between 1941-1956

Those that know her call her Precious and she is believed to be approximately 56 years old. She has been totally restored as a solo canoe by Arbor Vitae Canoes of Sussex NB.

The original canvass has been replaced by a self-healing vinyl making it very light - approximately 45+ lbs.

A solo seat was added and any woodwork that required attention received it. She did not require much as she has been stored indoors her entire life. She has only been paddled on lake-water since its restoration.

She is one of a kind as a solo Pond. I have not been able to find any other Peterborough Ponds still in existence but there may be some as 1400 of them where made in the 15 years they were built.

ASKING PRICE \$ 2,500.00
